2006 The Great Smoky Mountains National Park is taking steps to thwart the introduction of an exotic insect pest that sneaks into the park and campgrounds
Great Smoky Mountains National Park is open 24 hours a day, 365 days a year. However, some secondary roads, campgrounds, and other visitor facilities close in winter. For more information on seasonal closures and to check current conditions, visit the park's website. Due to the varied elevation and topography in the park, local weather can be unpredictable. The temperatures are greatly varied between mountain tops and valley floors, and the weather can also be drastically different. The park's lowlands average about 55 inches of rain per year while...

The Great Smoky Mountains National Park is a United States National Park that straddles the ridgeline of the Great Smoky Mountains, part of the Blue Ridge Mountains which are a division of the larger Appalachian Mountain chain. The border between Tennessee to the west and North Carolina to the east runs northeast to southwest through the centerline of the park. On its route from Maine to Georgia, the Appalachian Trail also passes through the center of the park.
