Introduction. Most organizations begin their project management practices through satisfying an immediate need to keep projects on track. The
most obvious vehicle to accomplishing this is the creation and management of a schedule. Laying a PPM Maturity Model over existing project management practice will create an opportunity to see the relationship between the Business Process Life Cycle with the maturing project management practice. The ability to identify related processes, repetitive processes, and conflicting or competing processes allows for streamlining the approach to how an organization develops its project management approach. PMP Online Training from Master of Project Academy will help you to crack PMP exam. Enroll Now!

Section-3 Quiz: Project Management Processes. The Role of the Project Manager. Handouts for Section-3.1 Presentation. Agenda of the Section (1:49). Overview of the Role of the Project Manager (3:56). Project Manager's Sphere of Influence (3:03). The PMI Talent Triangle (2:24). Project Manager Competences (7:47). Section-3.1 Quiz: The Role of the Project Manager. Evaluate Impact of Organizational Change to Project and Determine Required Actions (7:13). Evaluate Impact of the Project to the Organization and Determine Required Actions (2:32). Section-14 Quiz. Code of Ethics and Professional Conduct. The Portfolio, Programme & Project Management Maturity Model (P3M3) described in this document is an enhanced version of the Project Management Maturity Model, based on the process maturity framework that evolved into the Software Engineering Institute's (SEI) Capability Maturity Model (CMM). However, since P3M3 was designed SEI has overhauled radically their set of Maturity Models to create CMMI. Within each level of maturity the P3M3 describes the programme and project-related activities within various key process areas. Each process area has a consistent structure, which is both descriptive and focused on outcomes. These are Program management and portfolio management facilitate better communication. Now, if an organization has more than one project, they will deal with them under a program or portfolio. The distribution of projects under a program or portfolio depends on the nature and the type of project. Programs are managed through program management and portfolios are managed through portfolio management. To manage a project under any of the above, it is necessary to understand the concepts well. Therefore, in this blog post will discuss projects, programs, and portfolios and their management. Collectively, these terms are known as the 3Ps of project management. Project. A project is
